Or course Mr. Charles Rorig voted in November. Has Col. Shallcross taken steps to enforce the law in his case? If not, why not?

THE German Navy has insulted the stars and stripes. Now what are we going to do about it? There's a big difference between Hayti and Germany. This important consideration must not be forgotten in the midst of our boasting.

THE opening sentence of Max O'Rell's book about America is, "The population the case according to the law, without of America is sixty millions-mostly regard to its political phases or effect, colonels." Just how far the presence of an unnaturalized native of Germany on the now famous Ohio County Returning Board will operate to invalidate the proceedings of that Board is a question for lawyers to consider, but it is an interesting consideration. If the Ohio County Board's work for Pendleton can be annulled for this cause it would be a consummation devoutly to be wished.

"What happens when two great forces meet?" asked Anarchist Grottkau at Chicago Sunday, and he significently added: "This is diplomatic language but we all understand what it means." Grottkau said much more in this strain. He was undisturbed by the Chicago police—the same police that refused to allow a harmless crank, Mrs. Parsons, to speak a few weeks ago. Where were they Sunday?

The fact that all our available war

The "Southern question" still continnes to be an interesting topic for discussion. It is all the more interesting Wilson's because it appears to be on the eve of a settlement. It is within the power of Beware of Continents for Catarra that Con-

the Southern States themselves to settle it without outside interference, and there seems to be an awakening all along the line to a realization of this fact. The Chicago Inter Ocean, in discussing the matter makes, the following interesting observations:

"The sherilf of Kemper county, Mississippi, has opportunity to do more toward inducing immigration to that State and thereby increasing the value of lands and adding to the riches of the commonwealth than all the local immigration societies, associations, or agencies yet or hereafter to be established, and in availing himself of this opportunity to the source of the commonwealth than all the local immigration societies, associations, or agencies yet or hereafter to be established, and in availing himself of this opportunity to the source of the system. The Democratic Tactics.

The Democratic Tactics,

To the Editor of the Intelligencer,
Sin:—The Democratic leaders of Wetzel county, not being satisfied with the notoriety of their villainies in changing the result of the election for Congressman for this district, are continuing their nefarious work.

They furnished the United States Marshal with the names of all the Democrats who were known to have voted for Goff. Subpenas were issued and sent to Constable John Shriver, who put in the greater part of the week, riding almost day and night, summoning them to appear in the Federal Court at Parkersburg. They claim those parties were bought by the wicked Republicans. Had it been their purpose to make an honest, non-partizan investigation, several Democrata about New Martinsville who disbursed large sums of money would have received an invitation to to attend court.

If Judge Jackson's court wants to get the bottom facts of the fraud and corruption in the late election, let it summon that immaculate body called the County Court of Wetzel, which issued some forty bogus naturalization papers to parties who voted at the last election.

Why not summon certain eminent lights of Democracy in this county, each of whom was furnished with two hundred dollars by Mr. Riley, who ran the campaign, to pat where it would do the most good?

We think the evidence these gentlemen could give would make very "interestin' readin'." We do not believe these large sums of money were used to corrupt the Republican vote, but were used to buy up their own people who had a disposition to break away from the Free Trade heresies of Democracy.
